

HLF-EDU 2024

Parallel workshop 2B: Incentives for teachers and students

Standardization & Education – A personal view

Annette Frederiksen
Next Generation DKE

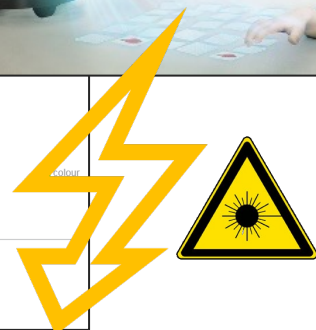

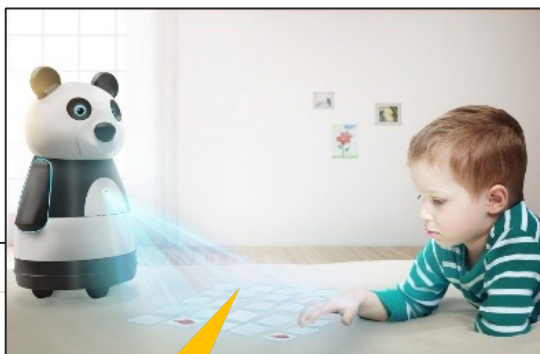

My start in standardization – first attempt

Me in 2009

My proposal:
Let's get involved
in the
standardization
committee

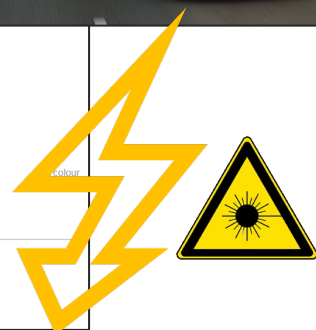

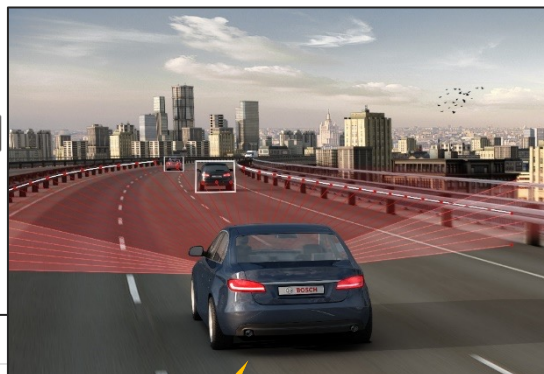

My boss in 2009

My start in standardization – 7 years later

Me in 2016

Idea:
Get involved in
standardization

Order: Get
involved!

Great
idea!

My management in 2016

My start in standardization – how I got involved

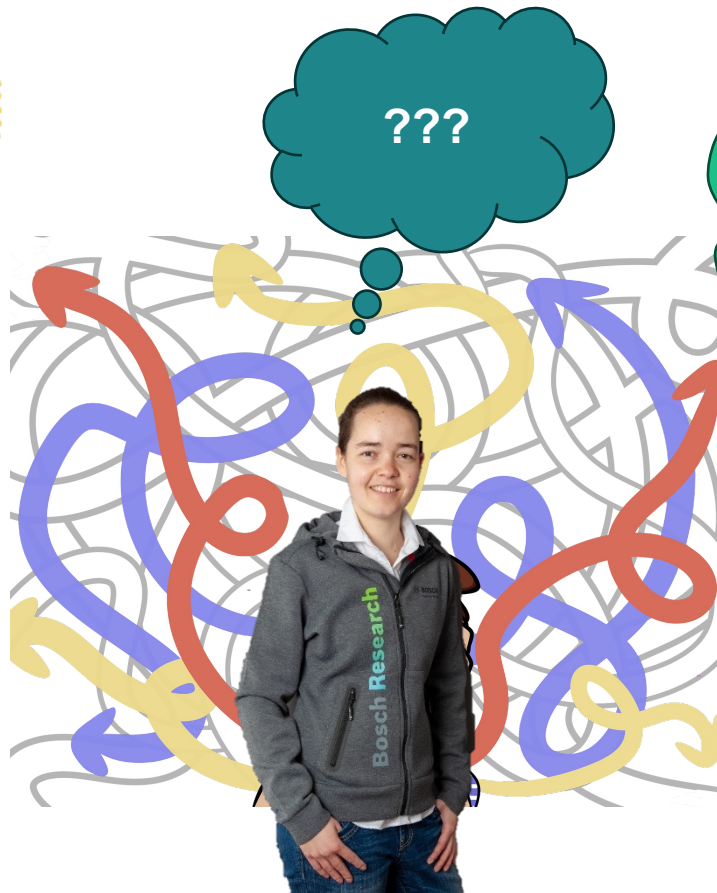

Me in 2016

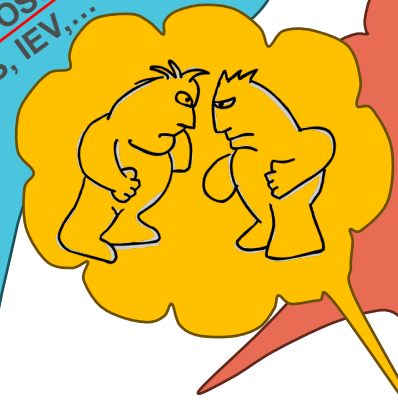

How the hell do I
get into
standardization?

New to standardization – how I felt...

WD, CD, CDV, FDIS,
IEC, TC, SC, WG,
JAG, JTC, JWG, TS,
TR, IS, SMB, CAB,
CB, CC, CLC, CEN
DOCOPOCOSS ISH,
DTR, DTS, IEV,...

We have
always
done it
this
way...

Standardization committees

I learned it the hard way...

Not easy

2016: first time attending a CLC/TC meeting as a guest

2017: becoming Secretary of the CLC/TC at the following meeting

What helped

2017: IEC Young Professionals Programme

- Knowledge
- Network
- Experience

Help others → Next Generation DKE

Next Generation DKE

The **network** for newcomers to electrotechnical standardization

We offer **support services** for an easy entry into standardization

Portfolio from 1 hour to 1 year

- Serious Games (Quest, Bootcamps)
- Lectures at universities + eLearning
- Regular's Table
- Events e.g. DKE YP Camp
- Mentoring
- IEC YP Programme

YP: Young Professionals
